Reviews

The Wall Street Journal:

... an outstanding series... stunning scenery and modern malevolence... combines the rural pleasures of the classic Western (close encounters with bears, an old-fashioned gunfight) with the sleuthing and forensics of the police-procedural... Joe Pickett, with a little help from some old and new friends, proves to be more than a match for any era's foe.

The New York Times:

C.J. Box serves up a lot of red meat -- some of it still raw and bloody -- in *Out of Range*... intelligent... compassionate... The glorious scenery is a bonus...

Booklist (starred review):

In the fifth installment of any series, even one this good, one might reasonably expect a creeping sense of routine. But, if anything, Box is getting better... Recommended for practically everybody.

Kirkus Review (starred review):

Joe's fifth case is his best balanced, most deeply felt and most mystifying to date: an absolute must.

Globe and Mail:

C. J. Box is another brilliant voice from the American West...a fine mystery, this is a great way to learn...

Publishers Weekly:

... taut, suspenseful... skillfully orchestrated... With each book he creates plots of greater complexity...

***Library Journal* (starred review):**

An unforgettably tense trip into the high country... Box's depiction of family tensions rings true... This fifth in a series is a Western lover's mystery, relying heavily on guns and honor; clearly, Joe's the real sheriff in town...
